Svitlo Alphabet

Little things, shared words

Choose something safe and familiar nearby. What does your family call it?

01

Fruit

Find a fruit you enjoy. What colour is it? Share the word your family uses.

02

Cup

Point to an empty, unbreakable cup. Who has a favourite cup at home?

03

Something warm

Choose a scarf or mitten. Pretend to put it on. What keeps you warm?

04

Leaf

Look for a leaf through a window, or on a walk with an adult. Trace its shape in the air.

05

Bird

Look through a window. Can you spot a bird? Share a word or a memory of one.

06

Your own discovery

Let the child choose a safe, familiar object. What story does it bring to mind?

Say the word in a language you use at home. Add another language if you like. A child can point, listen or join in — there is no need to repeat.

For an adult and child to share. Choose safe objects; supervise throughout. Keep hot drinks, small, sharp and fragile items out of reach. Look without touching or tasting outdoors.

A separate free activity, not a book sample.

Make it your family's

Find. Name. Share. A few minutes together is enough.

Notice something

Let the child choose a safe object, or something they can see through a window. Follow what catches their attention.

Share your words

Say the name in the languages you know. If you are unsure of a word, ask someone in your family or a fluent speaker later.

Tell a little story

"This reminds me of…" is enough. Talk about a favourite fruit, a winter walk or a cup someone always uses.

A word or memory to keep

Write a word your family uses and the memory it brings. Notes stay on your copy.

Free for personal, family or non-commercial classroom use. Please keep Svitlo attribution.
